

# The 8<sup>th</sup> TAICS - TTA Joint Workshop

## - Advancing 6G Standards & Technologies -

台灣資通產業標準協會 (TAICS) 與韓國電信技術協會 (TTA) 將於 2026 年 10 月 20 日上午共同舉辦「第八屆 TAICS-TTA 聯合研討會」，主題為「Advancing 6G Standards & Technologies」。本次研討會將聚焦 6G 標準進度、非地面網路 (NTN)、人工智慧輔助技術、行動服務永續化與全球合作等前瞻議題，並由台灣與韓國的研究機構及產業代表分享最新成果與策略，期望透過雙邊持續性交流，來推動 6G 技術的國際接軌，為未來行動通訊生態奠定堅實基礎。( 本次研討會以現場全英文方式舉行，歡迎踴躍報名參加！ )

- 時間：2026/10/20 (二) 09:00 ~12:15
- 地點：政大公企中心 A747 ( 台北市大安區金華街 187 號 )
- 主辦單位：台灣資通產業標準協會 (TAICS)、韓國電信技術協會 (TTA)
- 協辦單位：台灣區電機電子工業同業公會、財團法人工業技術研究院
- 贊助單位：台灣是德
- 議程：

| Time        | Topics                                                                                            | Speaker                                                                                        |
|-------------|---------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|
| 09:00~09:10 | Opening and Welcome Speech                                                                        | 1. Dr. Sheng-Lin Chou, Secretary General of TAICS<br>2. Dr. Daejung Kim, Vice President of TTA |
| 09:10~09:15 | Group photo                                                                                       |                                                                                                |
| 09:15~09:35 | Academic Research for Next Generation Cellular System Standardization and Specification in Taiwan | Prof. Sean Huang, Professor of National Taiwan University                                      |
| 09:35~09:55 | KT's priorities for 6G Day-1 commercialization & rollout                                          | Mr. Chungwoo Hwang, Principal Engineer of KT                                                   |
| 09:55~10:15 | 3GPP NTN overall progress and evaluation towards 6G                                               | Mr. Tank Hsieh, Senior Researcher of Chunghwa Telecom laboratories                             |
| 10:15~10:35 | Physical-AI Assisted Technologies: ISAC & Semantic Communication                                  | Dr. Jaehoon Chung, Research Fellow of LGE                                                      |
| 10:35~10:55 | Coffee Break                                                                                      |                                                                                                |
| 10:55~11:15 | Enable Personalized, Intelligent and Sustainable Mobile Service with Pervasive Coverage           | Dr. Ato Yu, Senior Department Manager of MediaTek                                              |
| 11:15~11:35 | ETRI's R&D Initiative for 6G NTN                                                                  | Dr. Seungkwon Baek, Principal Researcher/CTS of ETRI                                           |
| 11:35~11:55 | ITRI's Insights on 6G RAN Evolution                                                               | Dr. Andy Wang, Technical Manager of ITRI                                                       |
| 11:55~12:15 | 6G preparation and global joint activities in Korea                                               | Prof. HyeonWoo Lee, Professor of Dankook University                                            |
| 12:15       | The End                                                                                           |                                                                                                |
